

Sustainable Criteria
Sölktäler Nature Park

Volkhard Maier

Annual cut

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Annual cut	Annual calculated cut	Control annual cut	Sölktäler Nature Park

Biodiversity

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Biodiversity	Conservation of the habitats in Natura 2000 area	Random samples	Natura 2000 area managers

Clearcut area <0,5ha

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Clearcut area	>0,5ha	Random samples	Forestry district authorities

Clearcut area 0,5-2ha

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Clearcut area	0,5-2ha	Authorization required	Forestry district authorities

Devastate forest (productive capacity, forest floor reveal, reforestation)

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Devastate forest (productive capacity, forest floor reveal, reforestation)	Avoiding to devastate forest	Random samples	Forestry district authorities

Forest damage (Insects and emissions)

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Forest damage (Insects and emissions)	Avoiding forest damage	Random samples	Forestry district authorities

Game bite

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Game bite	Avoiding game bite	Random samples	Forestry district authorities

Protective forest

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Protective forest	Declared as protected forest	Random samples	Forestry district authorities

Protection forest

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Protection forest	Declared as protection forest	Random samples	Forestry district authorities

Ripeness for cutting

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Ripeness for cutting	60 years	Random samples	Forestry district authorities

Sustainability

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Sustainability	Austrian Forest Law	Random samples	Forestry district authorities

Transportation distance

Basis for sustainability monitoring (legal)	Sustainability criteria monitored	Method of monitoring	Responsible person for monitoring
Transportation distance	<50km	Control LSC	Sölk­täler Nature Park

Thank you!
